Josephine Porter Institute (JPI) Products for Use in NOP Organic Farm Production

Please Note: All Biodynamic Preparations are listed by OMRI in the Generic Materials List as follows -

Biodynamic Preparations

Status: Allowed

Class: Crop Management Tools and Production Aids

Origin: Nonsynthetic

Description:

Includes horn manure spray (500) horn silica (501), yarrow flowers (502), chamomile (503), stinging nettle (504), oak bark (505), dandelion (506), valerian (507), and horsetail (equisetum) spray (508).

NOP Rule: 205.105(a)

1) Pfeiffer BD Compost Starter

Ingredients:

Cow manure (fresh and aged)

- BD Preparations #'s 500; 502; 503; 504; 505; 506; 507 See below for ingredients of the various BD preparations.
- Compost, (Ingredients = animal manure and vegetative matter both from the JPI farm and the pile is inoculated with the BD compost preparations 502-7. "Compost" is not documented to the temperature and turning specifications of the NOP regulation)

2) Pfeiffer BD Field & Garden Spray

Ingredients:

- Cow manure from lactating cows
- BD Preparations #'s 500; 502; 503; 504; 505; 506; 507.
(In different ratio than in Compost Starter above)
- Compost (Ingredients = animal manure and vegetative matter both from the JPI farm and the pile is inoculated with the BD compost preparations 502-7. "Compost" is not documented to the temperature and turning specifications of the NOP regulation)

*Producing the biodynamic preparations: officially endorsed
by the Bio-Dynamic Farming and Gardening Association, Inc.*

JPI is a tax exempt 501(c)3 organization. Federal ID#54-1359533.

- 3) BD #'s 500, 500x, Prepared 500
Ingredients:
- Cow manure (fresh/ aged when preparation is finished)
- The Prepared 500 has the compost preparations 502-7 added to it
- 4) BD #'s 501, 501F, 501 5x, 501 6x
Ingredients:
- Silica (finely ground quartz or feldspar)
- 5) BD #502
Ingredients:
- Yarrow blossoms (wild crafted from JPI's Farm)
- 6) BD #503
Ingredients:
- Chamomile blossoms (sourced as organic from Blessed Herbs)
- 7) BD #504
Ingredients:
- Stinging Nettle (wild crafted from the JPI Farm)
- 8) BD #505
Ingredients:
- Oak Bark (wild crafted from the JPI Farm)
- 9) BD #506
Ingredients:
- Dandelion blossoms (wild crafted from the JPI Farm)
- 10) BD #507
Ingredients:
- Valerian blossom juice (harvested from this and other Biodynamic farms)
- 11) BD #508
Ingredients:
- Horsetail Herb (*Equisetum arvense*) (sourced as organic from Blessed Herbs)
- 12) Barrel Compost (BC)
Ingredients:
- Cow manure (fresh/ aged when product is finished) basalt powder, ground egg shells and BD #502 through #507

13) Tree Harmonizer Kit

Ingredients:

- Measured amounts of BC, BD #500, BD #501 and fermented BD #508

14) Hugo Herbe #5

Ingredients:

- Preparation made with digestive tract contents from cow and BD #500; #502; #503; #504; #505 #506; #507.

15) Hugo Herbe # 9

Ingredients:

- Preparation made from organic grape juice, organic cow's milk, Biodynamic wheat, organic sunflower oil, egg white's, cooking salt, and honey.

**Pfeiffer Biodynamic
Compost Starter**

1 OZ NET WT.

Makes 1 1/2 Tons of Compost

Pfeiffer Biodynamic Compost Starter is used for creating healthy, effective compost for use in all forms of agriculture. It contains the BD #500 and #502-507 (compost preps) which stimulate the proliferation of beneficial soil organisms and enzymes leading to the creation of the most vital compost on planet Earth.

Activation Instructions:

Mix the Pfeiffer BD Compost Starter with enough lukewarm water to yield a fully moistened paste-like substance. Store the mixture in a warm place for approximately 12 hours before application. The mixture, once activated, is usable for up to 48 hours.

Application Instructions:

The starter must be activated for at least 12 hours before use.

Dilute the activated compost starter with sufficient water to fully cover the material to be composted. The amount of water is dependent upon the calibration of your spray equipment or the method of application.

Apply the diluted mixture while building the compost pile or mixing the materials. The material being composted should be thoroughly permeated with the activated, diluted Pfeiffer BD Compost Starter.

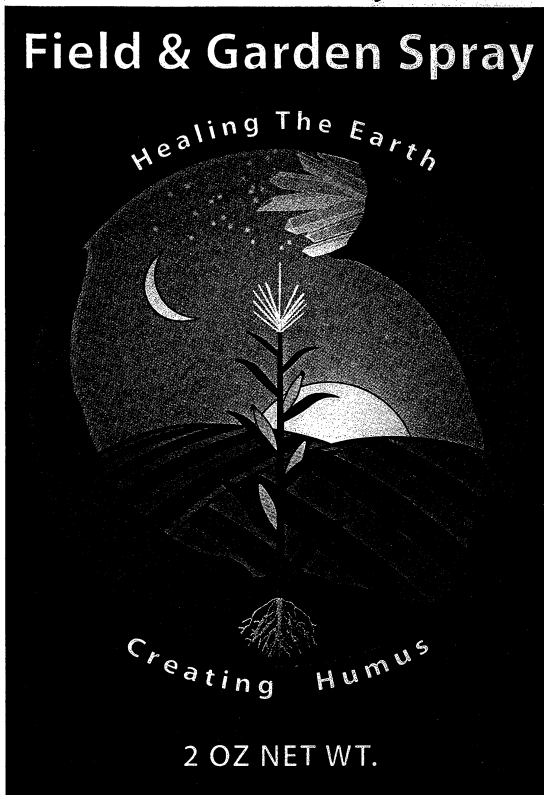

This product was screened through a NO. 50 Mesh screen.

Pfeiffer Biodynamic Field & Garden Spray

Fertility for up to 1 Acre

Pfeiffer Biodynamic Field & Garden Spray aids the transformation of organic materials already in the soil into humus. It contains the biodynamic agricultural preparations BD #502, #503, #504, #505, #506 and #507, as well as BD #500, which stimulate the proliferation of beneficial soil organisms. Its use accelerates the breakdown of organic matter without tying down nitrogen and leads to the creation of healthy soil with abundant humus.

Activation Instructions:

Mix the Pfeiffer BD Field & Garden Spray with enough lukewarm water to yield a fully moistened paste-like substance. Store the mixture in a warm place for approximately 12 hours before application. The mixture once activated is usable for up to 48 hours.

Application Instructions:

The mixture must be activated for at least 12 hours before use.

Dilute the activated field and garden spray with sufficient water to fully cover the area to be sprayed. The amount of water is dependent upon the delivery rate of your spray equipment.

Apply the diluted mixture to the land at the rate of one unit per acre.

This product was screened through a NO. 50 Mesh screen.
